

Weekly estate review

From	Director Municipal Coordination
To	Municipal coordination team
Date	22 September 2026
Subject	Three priorities for the next estate review

Please prepare a one-page decision brief for our weekly estate review. We can support three improvement initiatives this cycle. Identify the issues needing attention, show the evidence behind each recommendation and propose the next action. Confirm the responsible agency or Town Council before assigning ownership. Bring a short dashboard and an email summary for the team.

What I need for the meeting

- A one-page decision brief with three proposed actions.
- A clear account of repeat reports, unresolved cases and data gaps.
- A dashboard and one visual that help us discuss a priority.
- A draft weekly email and a simple briefing site for colleagues.

Attached evidence

The operations reference sets out our categories, responsibilities and measurement rules. The raw Excel export contains the feedback and case updates.

Photo register: site-photo-R001.png belongs with report R001, case C001, Bedok, zone 1. The photograph supports that record; it is not a separate report. Verify the location and cause through inspection.

Please distinguish what the photo visibly shows from what the resident reports and what a site inspection would need to establish.

The review uses records dated 1-22 September 2026. Confirm asset ownership with the estate liaison before assigning an agency or Town Council action. No official response-time target is supplied.
